

# "How I Created My First Product & Made My First \$700 Online..."

(In 3 Simple Steps)

Hi,

Gabriel Aguiñaga here.

Thanks for being my subscriber!

To show my appreciation, I decided to write this report and hand it to you at no cost.

Okay, my first product was a video set I created to show people how to hide their affiliate links from link hijackers - while making those ugly affiliate links look professional. You can see the sales page here: <http://AffiliateSalesBooster.com>, to learn how it works.

Anyhow, I am now going to give you the steps I took to create this product, which led to my first exciting payday (\$700)

## Step 1: Identify a Problem.

The problem was that newbie marketers were promoting “raw” affiliate links; which looked super ugly and ran the risk of being bypassed (*meaning that they would lose the commission*).

Now, there was already a software program in the market that solved this problem... BUT... it had a \$97 price tag.

So I decided to teach people how to cloak/hide their affiliate links and charge only \$27 for it. (I used video tutorials).

I don't remember what software I used to create my first set of videos but I know I paid like \$60 for it. Right now, I use [Camtasia](#) (it's around \$300).

**BUT...** not long ago someone released a tool called “CamStudio For Internet Marketers” (or something like that 😊)

Anyhow, I will start selling it soon but you can download it for free... just...

[Click here.](#)

I'm also giving you master resell rights so you can even make some money selling it yourself. Am I nice or what?!! LOL

## **Step 2: Record The Videos.**

Creating videos is really easy. All you need is the software I shared with you in the previous section and computer microphone. You don't need an expensive microphone either; in fact, I use an old raggedy one I paid \$12 for!

Do you need to sound professional?

Well, it helps but it is definitely not mandatory.

Till this day, even after creating many videos, I still sound a bit immature. But that's okay because people just want the content. So as long as your audience receives your message -- it doesn't matter if you sound like a million dollar pro or like a newborn video maker.

Oh yeah... that doesn't give you an excuse to deliver poor quality videos. I encourage trying your very best in every video you create.

## **Step 3: Sell Your Videos At The Warrior Forum!**

So you found a problem and created some videos to solve it. Now what?

Well you can sell them or you can give them away to build your list. But since we're talking about making money fast here, we're going to sell them at the [warrior forum](#).

Just in case you don't know...

[The Warrior Forum](#) is one of the most popular Internet marketing forums on the net and you can get a free account. (I recommend you do)

The forum has a section called "**Warrior Special Offers Forum**" and here is where you'll be selling your product.

Why here?

Well because A LOT of people visit the Warrior Forum EVERY DAY and you are going to be tapping into this great source of quality traffic/visitors.

**NOTE:** *Do not post a “special offer” on your very first post. Make sure you make at least 5 post on other sections of the forum first. You can ask question and/or post useful answers.*

Okay... so now you have video tutorials that teach people something, now it's time to post a **“Warrior Special Offer”**

If your videos teach something about “Internet Marketing” then you will sell your videos well (*assuming they are good of course*).

Remember that almost every soul in the warrior forum is an Internet Marketer so you will do better by selling an Internet marketing related product.

**But what if your product is a “Niche” product... that has nothing to do with Internet marketing?**

You might want to consider offering resell rights to your product then, or even Private Label rights.

Most marketers are always on the lookout for quality products with resell or private label rights... so although a product about “Gardening” may not interest us... we may be interested in the resell rights (so we can sell it and make money)

**Tip:** When you post your videos for sale, make sure you are giving people a ‘real’ special offer. Also, look at past special offers so you can get an idea of how it's done.

**How Much Can You Expect To Make?**

I made \$700. I know people who make like \$2,000 or way more.

The sweet part is that...

**It is almost IMPOSSIBLE for you NOT to make money following this advice.**

Hope you found this issue helpful and I look forward to bringing you more moneymaking tips in the future.

**All the best,  
Gabriel Aguiñaga**
